4.2 Summarize data and trends from the data linked above, reflecting on the prompts below.

What has the provider learned from reviewing its Annual Reporting Measures over the past three years?  
 Discuss any emerging, long-term, expected, or unexpected trends? Discuss any programmatic/provider-wide changes being planned as a result of these data?  
 Are benchmarks available for comparison?  
 Are measures widely shared? How? With whom?

The most recent EPP self-study report lacked sufficient data to determine any emerging or long-term trends. While not a direct result of annual reporting measures the EPP has been approved to offer a K-12 mild-intervention degree beginning with the 2019-2020 academic year. This outcome is the result of the long-term vision and continued administrative planning efforts. As part of the Vincennes University administration's plan to increase enrollment, the EPP's program has been targeted to increase its online course offerings with a desire toward eventually offering an online degree in elementary education. As the EPP's K-6 mild intervention program expands its certificate to a K-12 mild-intervention offering it is expected that the overall enrollment numbers will increase. Measures are shared at the upper administrative level - Dean, Provost and President – through administrative meetings.

I understand that all the information that is provided to CAEP from EPPs seeking initial accreditation, continuing accreditation or having completed the accreditation process is considered the property of CAEP and may be used for training, research and data review. CAEP Accreditation Policy

### **Policy 6.01 Annual Report**

An EPP must submit an Annual Report to maintain accreditation or accreditation-eligibility. The report is opened for data entry each year in January. EPPs are given 90 days from the date of system availability to complete the report.

CAEP is required to collect and apply the data from the Annual Report to:

1. Monitor whether the EPP continues to meet the CAEP Standards between site visits.
2. Review and analyze stipulations and any AFIs submitted with evidence that they were addressed.
3. Monitor reports of substantive changes.
4. Collect headcount completer data, including for distance learning programs.
5. Monitor how the EPP publicly reports candidate performance data and other consumer information on its website.

CAEP accreditation staff conduct annual analysis of AFIs and/or stipulations and the decisions of the Accreditation Council to assess consistency.

Failure to submit an Annual Report will result in referral to the Accreditation Council for review. Adverse action may result.

### **Policy 8.05 Misleading or Incorrect Statements**

The EPP is responsible for the adequacy and accuracy of all information submitted by the EPP for accreditation purposes, including program reviews, self-study reports, formative feedback reports and addendums and site visit report responses, and information made available to prospective candidates and the public. In particular, information displayed by the EPP pertaining to its accreditation and Title II decision, term, consumer information, or candidate performance (e.g., standardized test results, job placement rates, and licensing examination rates) must be accurate and current.

When CAEP becomes aware that an accredited EPP has misrepresented any action taken by CAEP with respect to the EPP and/or its accreditation, or uses accreditation reports or materials in a false or misleading manner, the EPP will be contacted and directed to issue a corrective communication. Failure to correct misleading or inaccurate statements can lead to adverse action.
